June 8-13, 2020

**Girls In Science Camp** is a six-day, five-night experience for 12–15 year old girls at Great Smoky Mountains Institute at Tremont, in Great Smoky Mountains National Park. Campers will explore habitats throughout the national park with naturalists and conduct their own field research projects. The goal is to foster interest in science among girls at the middle school level. (Transportation to Great Smoky Mountains Institute at Tremont is not provided.)

**To apply**, complete and send us the following in one envelope (do not staple). *If you fax or email your application, do not mail a hard copy. We will notify you if we can't read what you send.*

- Contact Information and Agreements Form
- Student Application (including your camper’s answers to two short questions)
- Medical Information and Waiver Form

We will review the completed applications as they come in and let you know if you are accepted within 4-6 weeks. **There is no deadline**, but you are encouraged to apply as early as possible. To make this opportunity available to as many girls as possible, priority will be given to those who have not attended Girls in Science before.
