

Tremont Field Program CovidSAFE: General Guidelines

We are excited to work with you to ensure all of the magic of a Tremont program occurs in a safe living and learning environment. We are no strangers to mitigating risk! With 50+ years of experience of working in inherently risky environments, we plan our programs accordingly to keep injuries and accidents at a minimum. We are applying our experience to the current COVID-19 reality, and will be using all of the best information available to minimize exposure and the possibility of transmitting disease. To make this work, we will need your understanding and cooperation.

Here are some of the precautions we will take, and some expectations we will have of participants.

Pre-program: *Let's not bring the virus to the program!*

- No fever or any other coronavirus symptoms recognized by CDC
- No known contact with or exposure to a coronavirus carrier for previous 2 weeks
- We may, at our discretion, cancel programs if local conditions, regulations, or CDC guidelines change. In that case, full refunds will be issued to all participants

During Program: *Let's program as if the virus were among us!*

- Daily temp/symptom checks will be conducted
- Frequent hand washing is a must, especially before and after meals
- When possible we will minimize van travel and rely on personal vehicles
- Please maintain 6' social distance and use masks when distancing is not possible.
- Desks/chairs will be positioned 6' apart; windows will be kept open when possible
- Classes will be held outdoors as often as possible
- Frequent sanitizing of program spaces will be conducted by Tremont staff
- Please bring your own cloth (or similar) mask. We're following CDC best practices and asking staff and participants to wear masks at specified times and locations during our programs..

Housing:

- In accordance with CDC guidelines, we will make full use of our dorm and tents to reduce occupancy assigned to each living space. Participants housed in the dorm should expect to share a large dormitory designed for 30 people with up to 4 other people.
- Extra sanitizing supplies will be made available for participants in their housing spaces

Meals:

- Food will be served cafeteria-style
- Seating will be dispersed inside the dining hall and alternate indoor and outdoor eating spaces made available
- Frequent sanitizing of dining spaces will be conducted by Tremont staff

Restrooms:

- Restrooms will be assigned according to housing cohorts
- Please use ONLY your assigned restroom and shower
- Frequent sanitizing of restrooms will be conducted by Tremont staff

Post-program Reporting:

- Please tell us ASAP should you show any symptoms of COVID-19 within two weeks following the end of the program
