Tremont School Program CovidSAFE: General Guidelines

We are excited to work with you and your students to ensure all of the magic of a Tremont program occurs in a safe living and learning environment. We are no strangers to mitigating risk! With 50+ years of experience of working in inherently risky environments, we plan our programs accordingly to keep injuries and accidents at a minimum. We are applying our experience to the current COVID-19 reality, and will be using all of the best information available to minimize exposure and the possibility of transmitting disease. To make this work, we will need your understanding and cooperation.

Here are some of the precautions we will take, and some expectations we will have of participating schools.

Pre-program for all participants (Students, Teacher, Chaperones): Let’s not bring the virus to the program!
● No fever or any other COVID-19 symptoms recognized by the CDC
● No known contact with or exposure to a COVID-19 carrier for previous 2 weeks
● We strongly encourage vaccinations in all participants who are eligible to receive one

During Program: Let’s program as if the virus were among us!
● Frequent hand washing is a must, especially before and after meals
● Classes will be held outdoors as often as possible
● Frequent sanitizing of program spaces will be conducted by Tremont staff
● Masks- Worn by all participants and staff when indoors except eating or sleeping. Masks may be worn outside when physical distancing is not possible
● We strongly recommend that students use the same assigned cohorts for dorm, table, and class assignments
● All Tremont teaching staff have been vaccinated

Housing:
● In accordance with CDC guidelines, we will make full use of our dorm to reduce occupancy assigned to each living space. The whole dorm will be made available to school groups regardless of size of group
● Only one school will be in residence on campus at a time. Adult programs may overlap with school programs, but no spaces will be shared simultaneously between programs

Meals:
● Food will be served cafeteria-style
● Seating will be outside in our covered pavilion, weather permitting. If weather is inclement, we will have seating dispersed inside the dining hall and other large indoor eating spaces

If a student falls ill during program:
● We have spaces for isolation of sick students. Students who are ill will need to be picked up by parents or guardians.

Post-program Reporting:
● Please tell us ASAP should you or your students show any symptoms of COVID-19 within two weeks following the end of the program
