EDUCATION THAT TRANSFORMS

Picture yourself in a world where education doesn't just inform, but transforms – where personal growth intertwines with local ecosystems, and new understanding sparks a profound sense of connection.

Welcome to Tremont. We're a nonprofit outdoor school located inside Great Smoky Mountains National Park. Our goal is simple: to offer immersive educational experiences that create positive change for both people and our planet.

In partnership with the national park, our research and residential programs help learners investigate biodiversity, develop a sense of place, and cultivate a stewardship ethic that will influence lifelong decision-making.

Whether you're a young adventurer, an inquisitive adult, or a passionate educator, our hands-on programs are designed to spark curiosity, foster self-discovery, and nurture critical thinking.

We invite you to join us.

WELCOME TO THE SMOKIES!

As Superintendent of Great Smoky Mountains National Park, it is my honor to welcome you to some of the most rewarding experiences we offer for learners of all ages through our outdoor school partner, Great Smoky Mountains Institute at Tremont. These immersive programs advance the park's education mission to connect people to this special place while cultivating lifelong relationships with the natural world. The memories created at Tremont now span several generations. What a legacy!

Park rangers and volunteers with the National Park Service provide a variety of educational experiences for school children and park visitors throughout the year. Our partner Tremont's residential environmental education programs expand upon those opportunities, deepening the connections between history, diversity, beauty and wonder in the Smokies. Through these multi-day experiences, participants have the opportunity to fully immerse themselves in this incredible natural laboratory, one of the most diverse ecosystems in the temperate world. As we discover more about the world around us, we end up discovering much about ourselves.

We invite you to explore the forests and waters of these ancient mountains with us. Thank you for supporting Great Smoky Mountains Institute at Tremont and their efforts to transform the lives of thousands by introducing scores of teachers and young people to the Smokies, who might not otherwise have had the opportunity.

We hope you enjoy your stay in the heart of Great Smoky Mountains National Park and that you will be inspired to return again soon.

Charlie Sellars, Superintendent
Great Smoky Mountains National Park

KICK OFF A LIFETIME OF ADVENTURE

OVERNIGHT SUMMER CAMPS IN GREAT SMOKY MOUNTAINS NATIONAL PARK

Discovery Camp

June 14-19 & June 28-July 3 | \$925

This is a classic summer camp in the Smokies experience – splashing in the swimming hole, making new friends around the campfire, and discovering the magic of playing outdoors. Ages 9-12.

Girls in Science

June 14-19 | Price varies based on need

Join other curious campers for the adventure of a lifetime, getting up close and personal with critters, plants, and the forces that shape our natural world. Learn through first-hand experience and meet inspiring women who have made a career out of their love for the outdoors. Apply by April 14. Ages 12-15.

John Thurman Trout Adventure Camp

June 21-26 | \$550+

Gain an appreciation of cold-water conservation through the sport of fly fishing. Campers will learn fly casting, tying flies, and secrets of fishing in mountain streams from experienced mentors. Financial aid is available through Trout Unlimited. Ages 12-16.

EVERYONE BELONGS AT TREMONT

We believe every child should have the chance to explore, discover, and grow in the Smokies – no matter their background or family's financial situation. If cost is a concern, our scholarships can help make camp possible for your child. Visit gsmmit.org/financial-aid to learn more.

Want to help a kid come to Tremont? Make a gift to our scholarship fund to give a child their own life-changing adventure at gsmmit.org/donate.

BACKCOUNTRY EXPERIENCES

Wilderness Adventure Trek – June 14-19 & June 28-July 3 | \$1,025

Learn the skills necessary to plan and enjoy a safe, successful backpacking trip with Tremont's experienced hiking guides. Before you know it, you'll be climbing a mountain, carrying everything you need to survive in the wilderness for four days and three nights. Ages 13-17.

Backcountry Ecological Expedition – June 28-July 3 | \$1,075

Travel to relatively undisturbed areas of the park to conduct field experiments and record your scientific observations. You'll explore creeks and hollows in search of the next organism new to the park – or even to science! Ages 13-17.

Teen High Adventure – July 19-29 | \$1,950

Spend six nights and seven days backpacking in the national park's beautiful backcountry. You will be amazed at the skills and confidence you gain from this wild adventure. Ages 13-17.

EARN COLLEGE CREDIT

Maryville College Great Smokies Experience – July 15-26

Hike, paddle, and explore in the mountains while learning about biodiversity and environmental stewardship. Students spend half of their time at Tremont and the other half on Maryville College's campus. For rising high school juniors, seniors, and recent graduates, this once-in-a-lifetime experience offers the most fun you can have while earning three credit hours in environmental studies. For pricing and registration, visit gsmit.org/gse.

CAMP ISN'T JUST FOR KIDS

Naturalist Week: Summer Camp for Adults

June 21-25 | \$1,100

Spend five immersive days exploring the Smokies, building outdoor skills, and learning to notice more of what's happening around you. This one-of-a-kind summer camp for adults is a chance to follow your curiosity, embrace new experiences, and deepen your connection to the natural world. Ages 18+.

FAMILY CAMPS

Firefly Camp

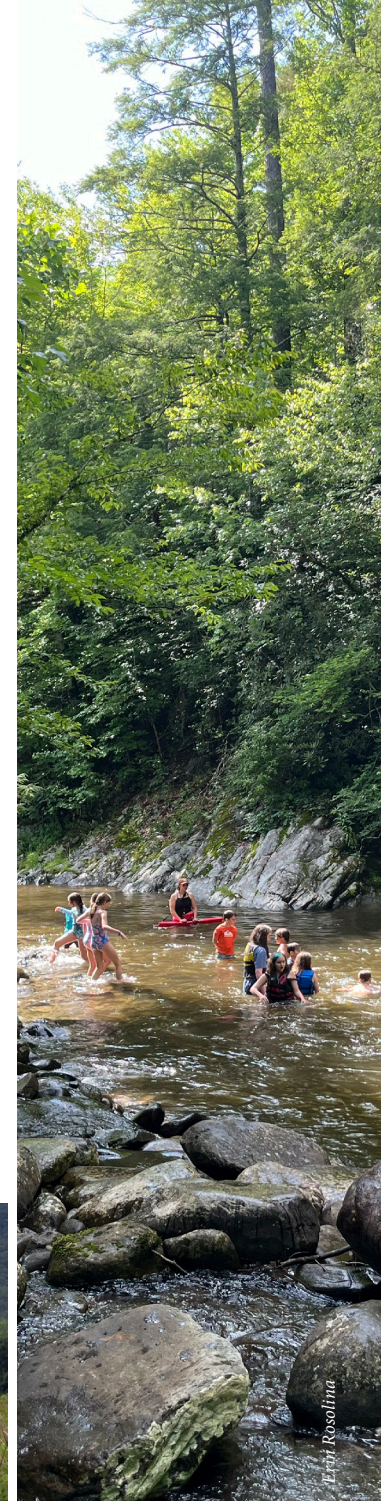

July 6-9 (Choose one, two, or three nights) | \$110+

Children and their grown-ups enjoy games, forest exploration, stream wading, campfire songs, and magical firefly displays at dusk. This popular camp fills fast, so sign up early! Ages 4-8 with adults of any age.

Smoky Mountain Family Camp

July 12-17 | \$725+

Let us host your family vacation in the Smokies! With so many options like hikes, swim time, nature activities, crafts, music, and more, the hardest part will be deciding how you want to spend your week together during this all-inclusive adventure. Ages 4+ with adults of any age.

Register online at gsmit.org

Want a sample of all our SANCP classes? Check out **Naturalist Week: Summer Camp for Adults** on page 9.

EXPLORE LIKE A NATURALIST

NATURALIST CLASSES & CERTIFICATION

Tremont's **Southern Appalachian Naturalist Certification Program (SANCP)** is a field-based course series that gives you the skills to interpret, understand, and share the rich natural and cultural history of the southern Appalachians. Whether you're starting with one class or aiming for full certification, you'll join a community of learners guided by experienced Tremont and guest faculty.

Complete all eight core courses to earn your certificate from the University of Tennessee.

THE UNIVERSITY OF
TENNESSEE
KNOXVILLE

Core Courses | \$580 per course

Naturalist Skills

Feb. 5-7 and Sep. 17-19

Step into the role of a naturalist and uncover the techniques that bring the outdoors into sharper focus.

Skills for Sharing Nature – Feb. 12-14

Engage others in the wonder of the outdoors to inspire curiosity and meaningful connection.

Birds of the Smokies – May 7-9

Immerse yourself in the vibrant world of birds, learning to identify species by sight, sound, and behavior.

Plants of the Smokies – May 7-9

Connect with native plants up close. Recognize species by their traits and uncover their ecological role.

Reptiles & Amphibians – July 9-11

Explore streams, wetlands, and forest floors to get to know salamanders, frogs, snakes, lizards, and turtles.

Aquatic Ecology – July 9-11

Wade into streams and snorkel in rivers to investigate the life thriving beneath the water's surface.

Southern Appalachian Ecology

Sep. 17-19

Make big-picture connections between geology, climate, flora, and fauna to deepen your understanding of the southern Appalachians.

Mammals – Nov. 5-7

Follow tracks, listen for calls, and observe behaviors that reveal the hidden lives of the Smokies' mammals.

Electives

Winter Woody Plant ID – Feb. 6 | \$105

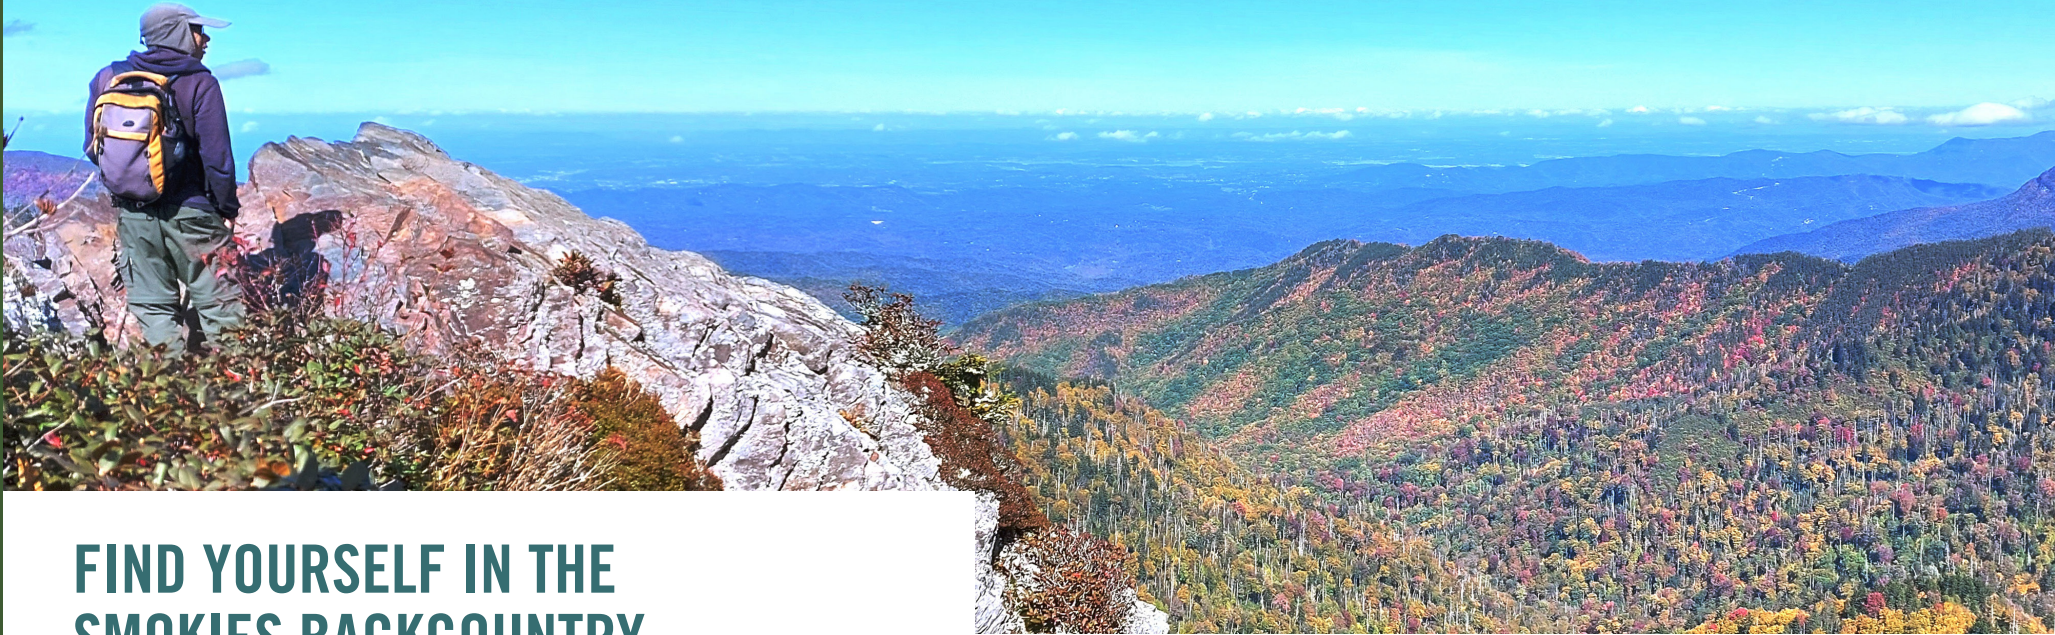

Identify trees and shrubs even when leaves are long gone, using bark, buds, and branch structure as your guide.

Likin' Lichens – Feb. 12-14 | \$580

Get down to eye level with lichens to uncover their fascinating forms, survival strategies, and role as indicators of environmental health.

Geology – Nov. 5-7 | \$580

Trace the story of the Smokies written in stone – from ancient sea floors to uplifted peaks – and see how geology shapes every living thing here.

FIND YOURSELF IN THE SMOKIES BACKCOUNTRY

HIKING & BACKPACKING EXCURSIONS

Springtime in the Great Smoky Mountains

April 19-24

Experience the Sierra Club National Outings Program with the added benefit of Tremont's expert naturalists. Spend your days hiking some of the Smokies' most scenic trails, and your evenings enjoying Appalachian storytelling, traditional music, and nature programs. Beginner and seasoned hikers are welcome. For pricing and registration, visit gsmit.org/sierra-club.

Women's Fall Backpack

September 30-October 3 | \$680

Enjoy early fall with a group of adventurous women on the trail and around the campfire. Join two experienced naturalist guides on a three-day beginner-friendly backpacking adventure through the Smokies backcountry. Beginner and seasoned hikers are welcome.

WILDERNESS EMERGENCY MEDICAL RESPONDER

Wilderness Emergency Medical Responder Course

January 10-17 | \$1,170

Don't be caught unprepared when an emergency strikes on trail. Led by instructors from Roane State Community College, this program meets the Tennessee Emergency Medical Services (EMS) and national registry standards for First Responder training.

Wilderness Emergency Medical Responder Refresher

January 29-31 | \$675

This program satisfies the requirements for the renewal of your First Responder certification. It is also an excellent review of wilderness medical information and skills.

Ask about our **Louise Barber Scholarship** for first responder courses.

TAP INTO AN ENDLESS STREAM OF INSPIRATION

Plein Air Smokies

September 18-25

Watch art come alive in the Smokies. Plein Air Smokies brings twenty talented artists into the open air to capture the park's beauty on canvas. Throughout the week, take in public painting demonstrations, join the fun in public painting demonstrations, join the fun by creating your own piece during the Quick Draw competition, and browse or purchase original works at the Collectors Celebration. Applications for featured artists will be accepted in early 2027. Learn more at pleinairsmokies.com.

Tremont Writers Conference

October 20-24 | \$1,800

Join acclaimed author Rick Bass and a team of renowned writers and professional park educators for a five-day retreat rooted in inspiration and authentic connection, hosted in partnership with Smokies Life.

Set against the backdrop of Great Smoky Mountains National Park, this intensive experience offers focused workshops in fiction, nonfiction, and poetry – each led by an accomplished author in the field. Applications will be accepted in early 2027. Learn more at writers.gsmit.org.

Steve Zigler

PHOTOGRAPHY WORKSHOPS

Our photography workshops feature renowned photographers such as Tom Vadnais, Steve Zigler, Susan Milinkovich, Dan Thompson, and Rich Rings guiding you through the best photo spots in the Smokies. Whether you are a beginner or a professional photographer, you will benefit from one-on-one assistance and helpful critiques during these energizing weekend workshops.

Springtime in the Smokies Photography Workshop

April 16-19 | \$1,075

Autumn Brilliance Photography Workshop

Oct. 29-Nov. 1 | \$1,075

Register online at gsmit.org

HANDS ON THE LAND

ADULT PROGRAMS AT TREMONT'S TOWNSEND CAMPUS

Learn by doing at Tremont's second campus. *Hands on the Land* is this year's limited series of practical, place-based programs that turn the Townsend campus into both classroom and workshop. Follow the changing seasons, take part in scientific research, cook together outdoors, or build new stewardship skills; each program offers a different way to get curious, try something new, and deepen your relationship with the land.

Learn more about our plans for the Townsend campus at tremontfuture.org.

Signs of Spring

March 20 | \$90

Spring rarely arrives all at once. Spend the day searching for its clues, from swelling leaf buds and emerging wildflowers to insects stirring after winter. Along the way, sharpen your observation skills, notice patterns of seasonal change, and create a pressed-plant keepsake inspired by what you discover. Ages 10+.

Family Campfire Cooking

October 2 | \$40

Some of the best meals begin long before anyone sits down at the table. Gather with other families to harvest ingredients from the garden, cook together around the fire, and enjoy the simple pleasure of making and sharing food outdoors. You'll leave with new cooking skills you can use on your next family camping trip. Ages 4+.

Community Science in Action

September 25 | \$90

What can a butterfly or bird tell us about the landscape around us? Spend the day seeing the Townsend campus through the eyes of a field researcher as you survey species of the Smokies. You'll learn how careful observations can contribute to meaningful scientific research – in the Smokies or your backyard. Ages 15+.

Chainsaw Skills for Beginners

November 13-14 | \$300

Learn the fundamentals of chainsaw use, including maintenance and sharpening, felling, limbing, and bucking. Designed for people with little or no previous experience, this workshop will give you knowledge, confidence, and hands-on practice to build a strong foundation for safe, effective chainsaw use. Tools and equipment are provided. Adults only.

Rich Bryant

BRING A LITTLE TREMONT TO YOUR CLASSROOM

From our 55+ years of experience, we know that immersive, inquiry-based learning fosters greater engagement, connections between concepts, and lesson retention. That's why we offer professional development opportunities for educators to feel more confident using experiential teaching methods in their own classrooms and outdoor spaces.

We envision school communities where:

- ✓ Outdoor experiential education is integral and frequent
- ✓ Teachers and students share curiosity around classroom content and the world
- ✓ Deep student-teacher relationships are foundational

EDUCATOR WORKSHOPS

Schoolyard Escape

April 10 | \$40

Join us for a single-day workshop at Green Magnet Academy in Knoxville to explore how teaching standards can be applied in an outdoor setting, try new activities to take back to your schoolyard, and build connections with other like-minded educators.

Teacher Escape Weekends

Aug. 21-22, Sep. 11-12 & Sep. 25-26 | \$110

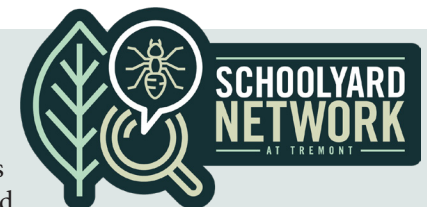

This Smokies retreat highlights the power of experiential learning and empowers educators to use the outdoors as a teaching tool. Teachers will gain new educational strategies, share best practices, and engage in experiential learning as a community of practice.

Schoolyard Consultations | Flexible dates and pricing

Work alongside Tremont staff to design a customized schoolyard walkthrough or workshop for your educators. We'll show your staff how to harness the power of outdoor teaching and learning, while also aligning to state standards and school curriculum, and reinforcing classroom concepts.

FIND SUCCESS IN THE SCHOOLYARD NETWORK

Join our virtual network of peer educators contributing resources, sharing field-tested best practices and success stories, and offering support for schoolyard learning. **The Schoolyard Network** is free for educators across the country. Learn more at gsmit.org/schoolyard-network.

*We strive to offer these opportunities at a low cost to teachers.
Thank you to Arconic Foundation for supporting this work.*

Zhen Xu

SCHOOL TRIPS TO THE SMOKIES

At Tremont, learning happens through experience. Students step outside the classroom and into Great Smoky Mountains National Park, where streams, forests, wildlife, and history become part of the lesson.

During our 3- to 5-day residential school programs, students explore the park alongside Tremont educators through hands-on, standards-aligned learning. They ask questions, investigate the world around them, build critical-thinking skills, and discover new connections between classroom concepts and the natural world. Along the way, teachers and students also have time to learn from one another and grow together as a school community.

What we do:

- ✓ Engage teachers and students through hands-on experiences
- ✓ Help students build critical thinking skills, scientific literacy, and a love for learning
- ✓ Challenge teachers and students to develop personal and meaningful connections to the land and to each other
- ✓ Model best teaching practices through cooperative teaching
- ✓ Immerse participants in the biodiversity and beauty of Great Smoky Mountains National Park

COOPERATIVE TEACHING

Cooperative teaching is a team-teaching approach that provides opportunities to connect subjects and standards from the classroom to hands-on lessons at Tremont. When teachers team up with Tremont faculty to practice experiential education techniques, they gain confidence and are more likely to transfer those skills back to the classroom and schoolyard.

WHAT YOU CAN EXPECT

Increased student learning

Student-teacher bonding

Support for teachers using experiential education

SCHOLARSHIPS, FINANCIAL AID & FUNDRAISING SUPPORT

We want Tremont experiences to be accessible to all, regardless of financial means. We offer financial aid and scholarships for schools in need, additional assistance for regional schools through our Local School Support Fund, and fundraising guidance to help schools reduce the cost of their trip. Learn more at gsmit.org/financial-aid.

Sponsor a student's trip to the Smokies.
Visit gsmit.org/donate to make a gift to our Scholarship Fund.

Erin Rosolina

WE'RE TURNING CURIOSITY INTO CONSERVATION

Public participation in scientific research connects people to nature through careful, intentional observations of ecosystems. What could be more fun than getting to know our fellow species up close and personal while documenting important data that can be used to protect the places we love?

Community science brings participants and volunteers together with research partners including:

- Discover Life in America
- National Park Service
- Institute for Bird Populations
- National Phenology Network
- Monarch Watch

PROJECTS INCLUDE:

PHENOLOGY
MONITORING

OTTER
SPOTTER

MONARCH
TAGGING

AMPHIBIAN
MONITORING

BIRD
BANDING

CONTRIBUTE TO COMMUNITY SCIENCE RESEARCH

Most community science projects require training and a long-term commitment, though many only require a few hours each month. If you're interested in joining our team of dedicated volunteers, email science@gsmiit.org.

OTHER WAYS TO VOLUNTEER

Throughout the year, our dedicated volunteers assist with a variety of activities such as event planning, friend-raising, fundraising, and maintenance projects. If you want to get involved, explore our volunteer opportunities at gsmiit.org/volunteer.

SUPPORT LIFE-CHANGING EXPERIENCES IN NATURE

Whether they visit as part of a school group, summer camp, or adult class, our program participants form deeper connections to nature and each other while gaining a fuller understanding of their place in our world.

Our community of supporters values our mission and understand the importance of place-based learning in the Smokies. Your contributions directly impact our ability to provide scholarships and financial assistance to those in need and sustain our day-to-day operations – bringing to life Tremont's work of shaping the next generation of nature's stewards and champions.

SCHOLARSHIP FUND

Scholarships create opportunities for youth to experience the wonders of the Smokies when they otherwise couldn't afford it. This could support an individual camper or a school group.

GO FUND

The GO Fund makes our work possible by supporting behind-the-scenes operations. This includes tools to keep our buildings safe and clean, nutritious meals for guests, staff training, and much more.

Donate online at gsmit.org/donate or send a check by mail to 9275 Tremont Road, Townsend, TN 37882.

MAKE A LASTING IMPACT

To learn more about supporting Tremont through our endowment fund, planned giving, stock donations, corporate sponsorships, or shopping give-back programs, contact our Development Director, Megan Womack, at megan@gsmit.org or 865.448-6709 x24.

Take a virtual tour of our second campus at tremontfuture.org

EXPANDING OUR IMPACT

Tremont is creating a second campus in Townsend to expand access to immersive, place-based learning in the Smokies. The first phase – a learning center – will create new opportunities for students, educators, families, community groups, and visitors to learn together in and from the natural world.

Designed with regenerative principles, the campus itself will become part of the learning experience, demonstrating thoughtful approaches to energy, water, healthy materials, and the relationship between buildings and the land.

The new campus will allow Tremont to serve more people and expand programs for schools, educators, adults, families, and community groups. **Learn more about the programs we offer on pages 16–17.**

We want this place to show what is possible when we build with intention, creating spaces that deepen connection with each other and the natural world.

for a second campus that connects

Great Smoky Mountains Institute at Tremont

EXPLORE NATURE IN YOUR OWN OUTDOOR SPACES

Virtual Naturalist Week – June 21-27

Step outside and see your world in a new way. This free, all-ages event offers daily virtual activities led by Tremont's naturalists, plus the Level Up Challenge – your chance to explore your surroundings, notice hidden patterns, and earn prizes for your curiosity! This virtual event is free to participate and fun for all ages.

"At Tremont, we believe the best learning begins with curiosity – when you slow down, look closely, ask questions, and discover something you didn't notice before. Our hope is that you leave the Smokies knowing this place a little better, knowing yourself a little better, and carrying that sense of wonder wherever you go."

Catey McClary, President & CEO

Grayson Shelor

OUR CAMPUS

Our campus is in Walker Valley, a historically rich section of Great Smoky Mountains National Park and part of the ancestral homeland of the Cherokee. Surrounded by miles of trails, a rushing river, and half a million acres of mountains and forests, we have the perfect playground for discovery.

We can house up to 135 people on site and have a full kitchen staff serving three hot meals per day.

We also welcome you to join us at our second campus, located just outside the national park in Townsend, Tennessee. Learn more on pages 16-17.

STOP BY AND SAY HELLO

Start your next Smokies trip at the **Tremont Visitor Center**. Our friendly staff can offer local tips, share expert knowledge, and help you choose the perfect hike for your next adventure.

Browse our curated gift shop for Smokies books and field guides, locally made goods, outdoor gear, and trip mementos. Every purchase supports Tremont's environmental education programs, bringing students, teachers, and families into the national park to learn, explore, and grow together.

ADD US TO YOUR FEED

Keep the Smokies in your feed year-round. Follow Tremont for stunning nature photos, behind-the-scenes glimpses of our programs, and tips for connecting with the outdoors wherever you are.

@tremontinstitute

Great Smoky Mountains
Institute at Tremont

OUR PEOPLE

Our faculty and staff bring decades of experience teaching at Tremont, in classrooms, and at other centers around the country. They are here not just to teach, but to walk alongside you, sharing stories, skills, and a love for the Smokies that deepens with every program.

Throughout your stay, you'll be welcomed by warm, attentive educators who create safe, supported learning experiences for every skill level, ensuring you feel both confident and inspired in the outdoors.

SIGN UP FOR TREMONT NEWS

Our monthly newsletter shares new and upcoming programs, nature stories, and opportunities to get involved, so you'll always know what's blooming, migrating, or sparking curiosity in the Smokies. Sign up at gsmit.org/newsletter.
